The Ministry of Labour Gazette 1917 bereavement is often treated as a psychological condition of the individual with both healthy and pathological forms however this empirically grounded study argues that this is not always the best or only way to help the bereaved in a radical departure it emphasises normality and social and cultural diversity in grieving exploring the significance of the dying person's final moments for those who are left behind this book sheds new light on the variety of ways in which bereaved people maintain their relationship with dead loved ones and how the dead retain a significant social presence in the lives of the living it draws practical conclusions for professionals in relation to the complex and social nature of grief and the value placed on the right to grieve in one's own way supporting and encouraging the bereaved person to articulate their own experience and find their own methods of coping based on new empirical research bereavement narratives is an innovative and invaluable read for all students and researchers of death dying and bereavement

A Year Ago; Eye-Witness's Narrative Of The War From March 20th To July 18th, 1915 [Illustrated Edition] 2015-11-06 includes the first world war on the western front 1914 1915 illustrations pack with 101 maps plans and photos major general ernest swinton had already had a long and illustrious career in the british army before the advent of the first world war in 1914 appointed as the official war correspondent by the war minister lord kitchener in 1914 his reporting home was the only way for the british people to follow the war as journalists were at that time banned at the front in these dispatches from the front swinton told the public of the bloody fighting in flanders and the heroic efforts of the allies to stop the german juggernaut so even handed and realistic they were brought together in a series of books under the pseudonym eyewitness for further publication swinton was not a château general by any means and visited the front with dangerous regularity write of the fighting with real authority often including anecdotes of the ordinary soldiers that he interviewed the miserable conditions and bloody siege

warfare of the trenches left a lasting impression on him and he looked to a scientific solution to the muddy stalemate of the western front he would gain lasting fame as the architect of the tank project that was to revolutionize warfare in the first world war and for many years thereafter

Summary of Operations 1962 one striking weaknesses of our financial architecture which helped bring on and perhaps deepen the panic of 2008 is an inadequate appreciation of the past information about how the system functioned and the reliability of organizations and institutional controls were drawn from a relatively narrow group of recent examples history and financial crisis lessons from the 20th century is an attempt to broaden the range of historical sources used by policy makers to understand and treat financial crises many recent discussions of the 2008 panic and the economic turmoil have found the situation to either be unprecedented or greatly similar to that of 1931 however the book s wide range of contributors suggest that the economic crisis of 2008 cannot be categorised in this way this book was originally published as a special issue of business history

Memorial History of Louisville from Its First Settlement to the Year 1896 1896 suppose you could communicate with a visitor who was not from this place time space or even this dimension what would you want to ask them the answers probably lie in what our own response would be if we were them this book is based on a collection of interviews i have had with a few individuals who may have actually had such an experience the idea is that if enough of us are ready to ask the questions and gain the answers then our collective knowledge and understanding of the multiverse about us can only continue to be enhanced sometimes the responses that you will read here are similar often they are diametrically opposed to each other an open but highly skeptical mind is extremely necessary if you are going to sift through the data that is presented in this book the intent is that it should peak your curiosity to learn more about visitors in this way we may be better informed and prepared and thus in some sort of coherent shape to deal with their arrival if you read this book you must be well prepared to choose for yourself what you will or will not believe
